## the agave cabinet by esrawe studio celebrates the mezcal culture

developed by mexican design practice [esrawe studio](#), the agave cabinet is a metaphor and homage to the ancient tradition surrounding the culture of mezcal. the latter is a famous alcoholic beverage typically made from the heart of the agave plant called the piña. each batch of mezcal differs from the other: the region, the kind of agave, the particular method, and the skills of the mezcal masters — all which define the final taste of each product.
