BEST NEW RESTAURANT DESIGN

AD spans the globe to spotlight a dozen eye-catching eateries where the architecture and interiors are as exciting as the cuisine

TORI TORI, MEXICO CITY

The Look: Gutting a house in the Mexican capital's residential Polanco district, local firms Rojkind Arquitectos and Esrawe Studios transformed the three-story structure into a glowing, futuristic cube of contemporary design. A fishnetlike skin of precision-cut steel encases the restaurant's glass walls, while the striking geometric interior features floating entry staircases and a tea lounge that's lined in boldly grained wood and has a lush vertical garden at one end.

The Food: This new branch of Katsumi Kumoto Kawasaki's beloved Japanese restaurant focuses on traditional sushi and sashimi cut from the freshest seafood and features an extensive sake menu.
